

NJOMA Needs Your Help!

2.18.2009

Your NJOMA Board needs help from Parents, Students, and Staff of JOM Programs nationwide!

We are in the process of gathering information for a lobbying trip to Washington DC to inform and educate Congress, of the importance of JOM Programs.

We are asking for any pictures of students engaged in JOM activities, parental letters regarding their child's JOM Program, or letters from Students and JOM Staff.

With the new administration it is imperative that we give them materials that show how important JOM programs are to our schools and communities.

We need this information as soon as possible!

You may e-mail or mail them to:
